

AYUDAS CLÍNICO JUNIOR EN EL TERRITORIO AECC 2022

Adjudicatarios

D. Pedro Rocha

Institut Hospital del Mar
d'Investigacions Mediques (IMIM)

Precision medicine meets Small Cell Lung Cancer: redefining therapeutic strategies matched to biomarkers.

D. Víctor Galán

Instituto de Genética Médica y Molecular (INGEMM) IdiPAZ-H.U. La Paz

Advanced molecular characterization in paediatric acute lymphoblastic leukaemia.

D^a. María Marcos Jubilar

Clínica Universidad de Navarra

Hemostatic disorder characterization in patients treated with CAR-T cells

D^a. Alexandra Cantero

Hospital Regional Universitario de Málaga. Carlos Haya

Role of variants of uncertain significance (VUS) and their analysis using artificial intelligence in patients with metastatic lung cancer

D^a. Cristina Ruiz

Institut d'Investigació Sanitària Illes Balears (IdisBa)

Nuevas dianas para el diagnóstico precoz y seguimiento del cáncer colorrectal

D^a. Nuria Benavent

Instituto de Investigación del Hospital La Fe de la Comunidad Valenciana-IISLAFE

NETs levels in plasma in children and adolescents with cancer and their clinical relevance

D. Eduard Teixidor

Institut d'Investigació Biomèdicas de Girona-IDIBGI

Identification of biomarkers in liquid biopsy related to tumor microenvironment of brain metastases from lung cancer patients treated with brain radiotherapy and / or immunotherapy

D^a. Gloria Miguel Llordes

Instituto de Investigación Sanitaria Aragón (IIS Aragón)

Development of immuno-targeted tools for the non invasive diagnosis of pediatric gliomas
