

# Ayudas Proyectos Estratégicos AECC 2023

## Adjudicatarios

<b>Dr. Fernando Pastor</b> Cancer Center Clínica Universidad de Navarra (CIMA-CCUN)	Boosting abscopal effect and minimizing locoregional failure by blockade of IL6/STAT3/SMG1 axis in onco-radiotherapy
<b>Dr. Antonio Leal</b> Universidad de Sevilla (US)	Clinical feasibility of gold nanoparticles as theragnostic agent for precision radiotherapy
<b>Dr. Daniel Gómez-Cabello</b> Instituto de Biomedicina de Sevilla (IBIS)	Repaivosome as a radio-biomarker and therapeutic target in radio-immunotherapy
<b>Dr. Jose Miguel Morales</b> Instituto de Investigación Biomédica de Málaga (IBIMA)	Validation and evaluation of the Cui-DAR Cudeca Plan in people in the last days of life versus conventional care
<b>Dra. Marta Crous</b> Instituto de Investigación Biomédica de Bellvitge (IDIBELL)	The influence of dietary patterns and physical activity in endometrial cancer: an opportunity for obesity-related cancer prevention

## Suplentes

<b>Dr. Víctor Franco</b> Vall d'Hebron Instituto de Investigación (VHIR)	2-in-1 Nanogold for a synergistic enhancement of radiotherapy and chemotherapy
<b>Dr. Pablo Aguiar</b> Universidad de Santiago de Compostela (USC)	PET-Guided radioimmunotherapy in glioblastoma (RADIOIMMUNOPET)

**Dr. Juan Manuel Sepúlveda Sánchez**  
Instituto de investigación Hospital 12 de  
octubre (i+12)

Characterization of the edema in brain tumors:  
how to avoid or reduce corticoid use in these  
neoplasms

**Dr. Esteve Fernández**  
Instituto de Investigación Biomédica de  
Bellvitge (IDIBELL)

Promoting smoking cessation among  
participants in breast, colorectal and cervical  
cancer screening programmes: the TASCCA  
Project
