

# Ayudas Predoctorales AECC 2024 Barcelona

## Adjudicatarios

**D.<sup>a</sup> Claudia Faundez**

Universidad Autónoma de Barcelona  
(UAB)

MAP kinase ERK5 inhibitors as targeted  
therapy to improve efficacy of  
immunotherapy in endometrial cancer

## Suplentes

**D.<sup>a</sup> Raquel Delgado**

Vall d'Hebron Instituto de Investigación  
(VHIR)

Ovarian cancer prevention through the early  
diagnosis of endometriosis

**D.<sup>a</sup> Mariana Yáñez**

Vall d'Hebron Instituto de Oncología  
(VHIO)

Towards next-generation immunotherapy  
for cholangiocarcinoma

**D.<sup>a</sup> Nesma Abd El Rahman**

Instituto de Investigación Biomédica  
(IRB Barcelona)

Understanding oncogenic competence  
during development using 3D gastruloids

**D. George V. Pérez**

Hospital del Mar Research Institute

Study of intercellular communication  
through AGO2-miRNA transfer in colorectal  
cancer for new therapeutic approaches and  
biomarker development
