

# Ayuda Clínico Junior en el Territorio AECC 2026

## Adjudicaciones

**Anna de Daniel**

Fundació de Recerca Clínic Barcelona-  
Institut d'Investigacions Biomèdiques  
August Pi i Sunyer

FcRL5-Targeted CAR-T therapy for  
multiple myeloma: developing novel  
constructs and strategies to enhance  
efficacy and persistence

**Carlo Maria Cicala**

Vall d'Hebron Instituto de Oncología  
(VHIO)

Modulating immune responses through  
targeted kinase inhibition in cancer

**Marta Tapia**

Instituto de Investigación Sanitaria  
(INCLIVA)

Novel therapeutic strategies with CDK  
inhibitors to overcome trastuzumab  
resistance in HER2+ breast cancer

**Antonio D. Lázaro**

Instituto Murciano de Investigación  
Biosanitaria Pascual Parrilla (IMIB)

From the laboratory to the clinic:  
imipramine as a strategy against fascina  
overexpression in cancer

**Ana Cardeña**

Hospital Ntra. Sra. de Candelaria

SUNRISE project: "SUpplementation of  
vitamiN D for optimized Response In Stage  
IV lung cancEr"

**Antonio Jesús Muñoz**

Instituto de investigación Biomédica  
Hospital Universitario La Paz (IdiPAZ)

Patient-Derived Xenografts (PDX) models  
validation as a therapeutic planning tool in  
pediatric oncology

**María Panizo**

Cancer Center Clínica Universidad de  
Navarra (CIMA-CCUN)

Identification of transcriptomic and genetic  
mechanisms of resistance and response  
biomarkers in CAR T-cell therapy to  
optimize the treatment of multiple  
myeloma

**María Dolores Suárez**  
Instituto de Biomedicina de Sevilla  
(IBIS)

Evaluación clínica de la genómica 3D  
como herramienta molecular de 2ª línea  
para el diagnóstico de precisión en  
sarcomas

## Suplementes

**Helena Martínez**  
Instituto de Investigación Sanitaria  
La Fe (IISLAFE)

Characterization of pediatric acute  
myeloid leukemia: application of  
genomic and transcriptomic profiles in  
clinical practice

**Jesús Chamorro**  
Hospital Universitario Ramón y Cajal

CAMILY: characterization of lung cancer  
patients carrying germline mutations  
and/or with a family aggregation of lung  
cancer

**Irina Sofía Luzko**  
Fundació de Recerca Clínic  
Barcelona-Institut d'Investigacions  
Biomèdiques August Pi i Sunyer

PREVENPANC: estudio multicéntrico  
español para la prevención del cáncer  
de páncreas

**Marta Rodríguez**  
Vall d'Hebron Instituto de Oncología  
(VHIO)

TCR repertoire diversity and neutrophil-  
to-lymphocyte ratio as blood-based  
biomarkers of immune ageing in  
colorectal cancer

**Cristina Larrosa**  
Hospital Sant Joan de Dèu

Dynamic quantification of GD2 and  
mechanisms of resistance to  
immunotherapy in pediatric solid tumors

**Ana María Bataller**  
Instituto de Investigación Sanitaria  
La Fe (IISLAFE)

Determinantes genómicos, celulares e  
inmunológicos implicados en la recaída  
de la leucemia mieloide aguda y los  
síndromes mielodisplásicos tras  
trasplante alogénico de progenitores  
hematopoyéticos

**Marina Ortiz**  
Vall d'Hebron Instituto de  
Investigación (VHIR)

Molecular classification and liquid biopsy  
in pediatric central nervous system  
tumors: towards integrated diagnosis  
and personalised follow-up
